Chief Minister Sustainable Agriculture Irrigation Scheme-Magel Tyala Shettale (Individual Farm Pond) has been launched by Ministry of Agriculture, Animal Husbandry, Dairy Development & Fisheries; Department, Maharashtra State in the year 2022-23 (vide G.R. Dated 29 th June, 2022) Under this scheme subsidy payable to individual farmer is minimum Rs.14433/- and maximum Rs.75000/- depending on the size of the farm pond. Considering this matter, Chief Minister Sustainable Agriculture Irrigation Scheme-Individual Farm Pond has been sanctioned by the Maharashtra State Govt. The scheme is implemented in all districts of the state. Under this scheme the subsidy payable to individual farmer is minimum Rs 14433/- and maximum Rs 75000/- depending on the size of the farm pond. The scheme is implemented by selecting the beneficiaries online through Maha-DBT portal. After completion of the farm pond, the subsidy payable under the scheme is credited through the PFMS system to the Aadhaar number linked bank account of the farmer. The farm ponds are of two types one being with inlet outlet and the other without inlet and outlet type.

## **Objectives (Chief Minister Sustainable Agriculture Irrigation Scheme - Magel Tyala Shettale (Individual Farm Pond))**

- Chief Minister Sustainable Agriculture Irrigation Scheme
- Magel Tyala Shettale (Individual Farm Pond) has been launched by Ministry of Agriculture, Animal Husbandry, Dairy Development & Fisheries; Department, Maharashtra State in the year 2022
- 23 (vide G.R. Dated 29 th June, 2022) Under this scheme subsidy payable to individual farmer is minimum Rs.14433/
- and maximum Rs.75000/
- depending on the size of the farm pond. ■ ■ Out of total area, 82 percent area of agriculture land in the state is rainfed and is dependent on rainfall. Water stress due to uneven distribution of rains and periodic interruptions in rains leads to large reduction in crop production. Sometimes crops are also destroyed. Farm ponds, in such situation plays an important role in providing protective irrigation and reduces crop losses substantially.
