

Modular Employable Skills

Details (Modular Employable Skills)

The Department of Technical Education, Vocational and Industrial Training, Government of Himachal Pradesh introduced a scheme to meet the demand for specific skills a PPP model was initiated between Government and Industry to promote skills development programme under the name Skill Development Initiative. Under the Skill Development Initiative Scheme (SDIS) based on Modular Employable Skills Training was introduced. It is aimed at improving the employability of the Indian workforce by providing vocational training. The objective of the scheme are:- to provide vocational training to school leavers, existing workers, ITI graduates, etc. Existing skills of the persons can also be tested and certified under this scheme. Key Features of the Scheme are:- Demand driven short term training courses based on Modular Employable Skills (MES) decided in consultation with Industry.

Objectives (Modular Employable Skills)

- It is aimed at improving the employability of the Indian workforce by providing vocational training. The objective of the scheme are:
- to provide vocational training to school leavers, existing workers, ITI graduates, etc.

Important Features (Modular Employable Skills)

- Key Features of the Scheme are:
- Demand driven short term training courses based on Modular Employable Skills (MES) decided in consultation with Industry.

Benefits (Modular Employable Skills)

- Improved employability: The MES scheme is designed to provide vocational training to individuals in various sectors, making them more employable in the job market. Flexible training: The training provided under the MES scheme is modular, meaning that it can be taken up in parts, making it flexible for individuals to learn at their own pace. Certification: The MES scheme provides certification for the skills learned, which is recognized by the industry, making it easier for individuals to get jobs. Skill development: The MES scheme provides training in various skills, including soft skills, technical skills, and practical skills, which help in the overall development of an individual. Cost effective: The MES scheme is a cost effective way of providing vocational training to individuals, as the training is provided in modules, reducing the cost of training. Encourages entrepreneurship: The MES scheme also encourages entrepreneurship by providing training in various sectors, making it easier for individuals to start their own businesses. Note: Overall, the MES scheme has been beneficial in providing vocational training to individuals and improving their employability, which is important for the growth of the Indian economy. MES would benefit different target groups like : Workers seeking certification of their skills acquired informally workers and ITI graduates seeking skill upgradation early school drop outs and unemployed Previously child labour and their families. The essence of the scheme is in the certification that will be nationally and internationally recognized. Successful persons will be awarded certificates issued by National Council for Vocational Training (NCVT).
