

# Drip Sanyantr

## Details (Drip Sanyantr)

The Drip Sanyantr under the Agriculture Department Rajasthan government gives subsidies to farmers. Proper utilization of every drop of water by drip plant, 75-80 percent saving of water and increase in quality production through efficient technology. For the successful operation of a drip irrigation system, it is necessary to calculate the correct water requirement because through this system only water is given equal to the requirement of the plants. The water requirement of plants varies seasonally and every month and the working hours of the system are balanced accordingly. ■ Important points After issuing administrative approval from the irrigation department. The grant amount is transferred to the account of the farmer or the supplier manufacturer/dealer with the consent of the farmer.
