

Plastic Tunnel (Lo-Tunnel)

Details (Plastic Tunnel (Lo-Tunnel))

The Agriculture Department of the Rajasthan government implemented the Plastic Tunnel (Lo-Tunnel) scheme, providing subsidies to farmers.

Objectives (Plastic Tunnel (Lo-Tunnel))

- The Agriculture Department of the Rajasthan government implemented the Plastic Tunnel (Lo Tunnel) scheme, providing subsidies to farmers. A low plastic tunnel is a protected structure created by covering each crop bed with plastic sheeting at a low height after planting. It is made to protect crops from damage caused by low temperatures. This technique is very useful for off
- season cultivation of vegetables in the plains of North India where the night temperature remains below 8 degrees Celsius for about 40 to 60 days during the winter season. This technique allows off
- season vegetable cultivation.

Important Features (Plastic Tunnel (Lo-Tunnel))

- The Agriculture Department of the Rajasthan government implemented the Plastic Tunnel (Lo Tunnel) scheme, providing subsidies to farmers. A low plastic tunnel is a protected structure created by covering each crop bed with plastic sheeting at a low height after planting. It is made to protect crops from damage caused by low temperatures. This technique is very useful for off
- season cultivation of vegetables in the plains of North India where the night temperature remains below 8 degrees Celsius for about 40 to 60 days during the winter season. This technique allows off
- season vegetable cultivation. Vegetable seedlings are prepared using the plastic tray technique specifically in December and January.

Benefits (Plastic Tunnel (Lo-Tunnel))

- 50 percent subsidy is available for a maximum of 1000 square meters.
- Small/marginal category farmers are given a 75 percent subsidy for a maximum of 4000 square meters.
